## Product Information

BKT RJ45 cat. 5e Keystone module, unshielded, tool free

Card No.: PI_11331011_01.18

The BKT RJ45 Keystone module is used to forming outlets in both flush and surface mounted versions through fitting them in adapters. Also enables development of modular patch panels for data cabinets.

Features

- IDC slot connection for cables with 22÷26 AWG
- Color-coded terminals according to T568A and T568B schemes
- Quick and simple installation
- Fixing the wires in the IDC slot conection can be done by pressing the tool free organizer and snaping the module casing
- BKT Keystone modules are equipped with an additional cable organizer witch allows termination by using 110 tool or by a dedicated tool BKT HAT
- Conforms with requirements of electromagnetic compatibility EMC
- Possibility of mounting in a wide range of installation equipment available on the market
- Dimensions (H x W x D) – 20mm x 16mm x 34mm.

Standards

- EN 50173-1
- EN 60603-7-2
- ISO/IEC 11801
- IEC 60603-7-2
- IEC 60512-99-001
- IEEE 802.3at (PoE/PoE+)
- ANSI/TIA-568-C.2
- RoHS 2011/65/EU

RoHS COMPLIANT
